

RESPONSE TO NOTICE OF DRAWING INCONSISTENCY WITH SPECIFICATION

In response to the 01/23/2009 Notice of Drawing Inconsistency with Specification to Application Number 10/554,115 the applicant respectfully submits the enclosed amendment to the specification and respectfully requests the Office of Patent Publications (PUBS), pursuant its authority under MPEP § 714.16(d) Subsection III, accepts the enclosed amendment and amends the specification accordingly.

The applicant notes that the enclosed amendment to the specification is consistent with the only part of the specification that refers to FIG. 14: paragraph [0247], which states at its germane section:

“Each Transcriber logs in and starts receiving VoicemailView (see FIG. 13 for the screen into which they type the transcribed message and from which they cause the message to be sent), or VoiceMessenger audio files to be transcribed (see FIG. 14), one at a time.”

As explained in paragraph [0247], FIG. 14 shows a screen shot of the web-based interface used by voice message transcribers for VoiceMessenger audio files to be transcribed.

Therefore as the proposed amendment to the specification is consistent with this description, the applicant respectfully requests that the amendment should be added to the specification accordingly.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'Mark D. Fox', with a stylized flourish at the end.

Mark D. Fox, Esq.

Reg. No. 38,677
